# About Us

## Powering a Greener Tomorrow

UVR Green Energies, a division of UVR Techsol Pvt. Ltd., is a leading Solar EPC company based in Vadodara, Gujarat, dedicated to delivering cutting-edge, sustainable, and reliable solar energy solutions across India. Our mission is to accelerate the transition to clean energy by offering end-to-end EPC services for residential, commercial, industrial, and institutional solar power projects.

With a strong focus on quality, innovation, and affordability, we specialize in:

- Site Assessment & Design
- Engineering & Technical Planning
- Procurement of Quality Components (MNRE Approved)
- Professional Installation & Commissioning
- Net Metering & Subsidy Assistance
- After-Sales Service & AMC

# Our Vision

To empower every home, business, and community in India with sustainable solar energy by delivering affordable, innovative, and high-quality EPC solutions. We envision a solar-powered nation, where energy independence, environmental responsibility, and economic growth go hand in hand.

We aim to be recognized as a trusted leader in the renewable energy sector, driving India's transition to clean energy through technology, transparency, and training—lighting up even the most remote corners of the country with the power of the sun.

# Our Mission

**To design, deliver, and maintain** reliable solar energy systems that meet the unique needs of residential, commercial, and industrial clients across India. Through our Engineering, Procurement & Construction (EPC) expertise, we aim to make clean energy accessible, affordable, and achievable for all, while contributing to India's sustainable future.

## We are committed to:

- Empowering communities with solar education and awareness
- Ensuring customer satisfaction through quality and transparency
- Supporting green growth and local employment
- Aligning our work with government schemes and climate goals

# Why Choose us?

## Our Core Values

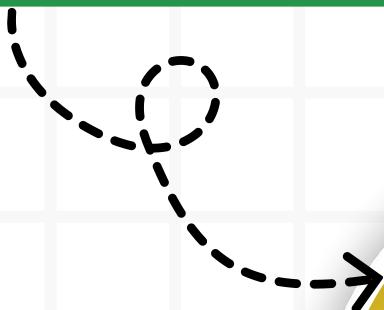

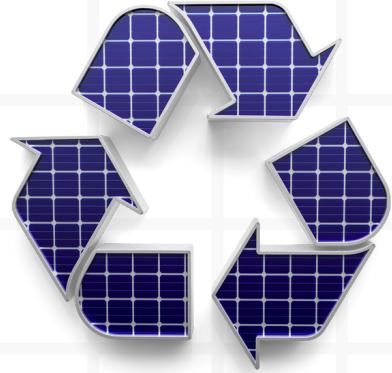

- 1. Integrity:** We act with honesty and uphold the highest standards of ethics and professionalism in everything we do.
- 2. Sustainability:** We are committed to promoting a greener planet through clean energy solutions that reduce carbon footprints.
- 3. Customer Focus:** Our customers are at the heart of our mission. We tailor solutions to meet their energy needs with care and clarity.
- 4. Innovation:** We embrace innovation in solar design, installation techniques, and business models to stay ahead in the evolving energy landscape.
- 5. Quality & Safety:** We use only certified components and follow stringent quality control and safety protocols at every stage of the project.
- 6. Empowerment:** We believe in training and empowering rural youth and local communities to become future solar professionals and entrepreneurs.
